Agastache cana	
Agastache foeniculum	Dense clusters of flowers. Leaves make a tasty tea. More tolerant of winter cold and wet soils. TRIAL FOR 2006
Agastache rupestris	Plant Select 1997! Hummingbirds, Long blooming -midsummer to fall, Lean, well-drained soil. Licorice scented.Mint family but does not spread.
Agave parryi	One of the hardiest species of Agave. Silver-gray rosettes, fiercely spined, produces offsets
Allium schoenoprasum	Common Chives- used for onion flavored seasoning- blooms are edible-use in salads Attracts butterflies
Allium schoenoprasum	Large thick leaf. Productive variety for commercial use.
Althea Rosea	All-American Selections Winner. Compact base branched habit. Blooms first year. 4" frilly blooms with powder puff center
Althea Rosea	Nice large plant with bright pink blooms. Showy.
Amorpha canescens	Small,soft gray leaves. Spikes of indigo flowers with yellow stamens early summer, slow seed spread, 20 " water min
Amorpha fruticosa	Deciduous 6-8 ft shrub. Purple flowers, -Butterflies. Native to PH- sandy soils along streams, rapid seed spread
Anacyclus depressus	Forms dense spreading mat. Daisy-like flowers in early spring, reseeds nicely, looks great late winter, early spring. Dry, hot situations-
Anethum graveolens	caterpillar food. Reseeds readily. Sow or plant several times in spring and summer for constant supply
Anethum graveolens	caterpillar food. Reseeds readily. Sow or plant several times in spring and summer for constant supply
Anethum graveolens	Cutflower type. Nearly sterile and somewhat compact.
Anisacanthus quadrifidus v. wright	Bright orange tubular flowers- long summer bloom Drought tolerant- Dies back in winter, cut back- maybe to ground in spring for better bloom
Aquilegia caerulea	Much improved longspurred McKana type. Broader, Brighter color range, large flower, More uniform growth and earlier blooming- trial'07
Aquilegia caerulea	Hummingbirds, Plan to replace every three years? Give regular light feedings. Check for and wash off aphids with soap water
Aquilegia caerulea	Colorado state flower. Plant in cool shade?
Aquilegia canadensis	Red petals surround yellow corolla, showy, extremley hardy. Smaller blooms, but many of them.
Aquilegia chaplinei	Similar to Aquilegia chrysantha, but half the size and more elegant
Aquilegia chrysantha a	Fragrant yellow blooms. Heat tolerant, mildew resistant, long bloom season, one of showiest. Native to NM, AZ. Long lived, reseeds
Aquilegia formosa	Stout red flowers, short spurs, yellow inner petals, will probably need a cool shady bed
Aquilegia longissima	Native to SW Texas. Similar to A. chrysanyha, with graceful, 4-6" drooping spurs TRIAL 07
Aquilegia x cultorum	Dwarf, carmine red with white corolla TRIAL FOR 2007
Asclepias asperula	Clumping, sprawling plant. Seed pods like small antelope horns. Flower clusters are very unique- ball-like clusters of smaller flowers.
Asclepias incarnata 'SOULMATE'	RISE EVERY YEAR FROM ROOTS (MARK PLANTING SPOT)
Asclepias speciosa	Prefers sandy soil, but is adaptable. Prefers moderate water water. Showy, slightly fragrant pinkish red blooms
Asclepias tuberosa	Rise every year from taproot (MARK PLANTING SPOT), long lived. Bright orange flowers a favorite for butterflies.
Asclepias tuberosa	Rise every year from taproot (MARK PLANTING SPOT), long lived. Bright orange flowers a favorite for butterflies.
Asclepias tuberosa	Rise every year from taproot (MARK PLANTING SPOT), long lived. Bright orange flowers a favorite for butterflies.
Atriplex canescens	Shrub, Rapid growth with moisture,gray foliage,small wildlife habitat,prune to hedge,windbreak
Basil	Great garden herb for Italian dishes. Very aromatic. Pinch flowers to maintain leaf growth
Basil- Ocimum sanctum	Rich aroma of sweet cloves and walnuts. Small pink flowers. Deep purple stems, slightly bronzed green foliage. Thai cooking.
Berlandeira lyrata	Denver Botanical Gardens Plant Select 2004 Chocolate scent, blooms in morning closes in afternoon, showy, flowers dry to brown seed

LATIN NAME	COMMENTS
Bouteloua curtipendula	Seeds form on side of stem. Emerge purplish with red/orange anthers. Good accent plant. State grass of Texas
Bouteloua gracilis	2008 GreatPlants® selection Turfgrass or ornamental bunchgrass. Slowly spreads maybe 2" per year
Buddleia alternifolia	Small tree or large shrub that does well in a variety of soils. Finely textured, blue grey foliage.
Buddleia davidii	Excellent shrub, prune to 12" in spring. Fast growth to 6-8ft. Fragrant, lilac-like blooms summer to frost without deadheading.
Buddleia davidii 'ALBA'	Graceful shrub with fragrant white flowers.
Buddleia davidii 'BLACK KNIGHT'	Deep violet, almost black flowers from summer to fall
Buddleia davidii 'DARTMOOR'	Branching lilac blooms, a very prolific bloomer. Very fragrant.
Buddleia davidii 'ROYAL RED'	Considered the best red form with red-purple flowers on panicles up to 20".
Buddleia 'LOCHINCH'	RHS award of merit. Compact, grey foliage with silver reverse. Blooms summer to late fall.
Buddleia nanhoensis 'NANHO PURPLE'	Silvery foliage on shorter plant.
Buddleia 'PETITE PURPLE'	Lovely dwarf plant.
Buddleia 'PINK DELIGHT'	Pink flowers on five to six foot plants
Buddleia X weyerana 'GOLDEN GLOBE'	Yellow flower clusters with pink and mauve. Hybrid between B. davidii and B. globosa.
Calamagrostis x acutiflora 'Karl Foerster'	5-6'HIGH 2-3'WIDE Sterile grass- won't reseed, Does well in medium to wet soils. Clay is ok. Do not allow to dry out.
Callirhoe alcaeoides	White Winecups on this Great Plains Native.
Callirhoe involucrata	Well drained soil is best, give plenty of room, will do well in a hot, exposed bed
Calylophus hartwegii	Blooms are square and yellow. Long bloom season
Calylophus hartwegii fendleri	Native, Blooms heavily in spring, then occasionally through summer
Calylophus lavendulaefolius	Long blooming, Dense, grey-green plant
Calylophus serrulatus	Subshrub, Blooms heavily in spring then lightly throughout summer.
Campanula glomerata	Upright with erect branches, Flowers are narrow, 1" bells. TRIAL FOR 2006
Campanula rotundifolia Olympica	Long blooming, dainty flowers on wiry stems above foliage - rock gardens, borders
Caryopteris x clandonensis	Nice small shrub. Considerable drought tolerance, long bloom period. Cut back to 1/3 its height in spring to encourage heaviest bloom
Catananche coerulea	STURDY, FREE FLOWERING, DROUGHT RESISTANT, HUMUS-RICH SOIL
Centranthus ruber alba	Adaptable plant with showy white flowers. Reseeds, short lived if overwatered. Long bloom season
Centranthus ruber coccineus	Adaptable plant with showy red flowers. Reseeds, short lived if overwatered. Long bloom season
Cerastium tomentosum columnae	Groundcover, silver foliage, white flowers early spring. May spread a foot per year, low front border
Ceratoides lanata	Shrub. Woolly-white seedheads in winter. Dried flower, forage plant for deer, rabbits etc in winter? Mine has never been nibbled on.
Ceratostigma plumbaginoides	Good groundcover spreads by rhizomes. Long bloom season Red foliage in fall, Slow to leaf out in spring, dies to ground in winter
Dalea bicolor v argyraea	Low silvery shrublets bear attractive heads of bright purple with white in autumn. Zone 7?
Dalea candida	
Dalea jamesii	Tufts of silvery-green, figured foliage carry balls of silver wool embedded with lemon flowers. The whole plant smells like lemon.
Dalea purpurea	Highly nutritious forage plant. woody taproot
Delphinium chinensis (grandiflorum)	Sturdy, compact plant. Bright true blue flowers. Short lived?
Delphinium chinensis (grandiflorum)	Said to be more tolerant of hot weather than Blue Butterfly TRIAL FOR 2006
Dianthus amurensis	
Dianthus deltoides	White flowers, Spreading perennial blooming first summer good for beds and containers
Dianthus deltoides	White with red Eye
Dianthus deltoides	useful for showy groundcover. Can take half-day shade. Blooms first year from seed. Large, bright, crimson red flowers
Dianthus deltoides	Uniform flowering time and habit. Flashing fragrant flower carpet from May onward.
Dianthus deltoides	Uniform flowering time and habit. Flashing fragrant flower carpet from May onward.
Dianthus deltoides	Brilliant scarlet, dark leaved, tufted habit
Dianthus deltoides	Clear pink, charming, the archetype for the series TRIAL FOR 2007

LATIN NAME	COMMENTS
Dianthus deltoides	Straight salmon pink, spreading habit. TRIAL FOR 2007
Dianthus deltoides	Carmine Rose, most scarlet of the series TRIAL FOR 2007
Dianthus deltoides	Dense bushy plants with large bright rose flowers TRIAL FOR 2007
Dianthus gratianopolitanus	Forms a full pink mat in spring. Pink shades, large flower. Nice evergreen/grey foliage.
Dianthus plumarius	Dwarf plumarius. Blooms first year from seed, all summer if deadheaded, loose matted grey-green leaves.
Dianthus plumarius	Large flowering, double mix in shades of pink, mauve, red and white TRIAL FOR 2007
Dianthus X ALLWOODI	first year flowering TRIAL FOR 2007
Dianthus x allwoodii 'Aqua'	Dense, carnation-like foliage; lovely low ground cover. Fragrant, double white flowers. Can be mowed after flowering.
Dianthus x barbatus	Filly edged flowers, glossy deep green leaves make an excellent cut flower
Dianthus x barbatus	Filly edged flowers, glossy deep green leaves make an excellent cut flower

Euphorbia myrsinites	Thick trailing leaves and yellow flowers
Fallugia paradoxa	White, rosy blooms followed by fuzzy seedheads in summer. Showy shrub. Southwest look. Deciduous.
Gaillardia aristata	All American Selection winner. Improved form. 4" flowers.
Gaillardia aristata	Scarlet red flowers
Gaura lindheimeri	Long lived perennial, taproot, fairly drought tolerant, many white blooms till frost- nice airy effect, takes heat- best given at least 3 ft space
Gazania krebsiana	Denver Botanical Gardens Plant Select 2003. Compact Plant Pure orange Bloom
Gypsophyila repens	Alpine native. Narrow leaves- sparse when in bloom. Clusters of flowers. Deadhead to encourage second bloom TRIAL 07
Gypsophyila repens	Alpine native. Narrow leaves- sparse when in bloom. Clusters of flowers. Deadhead to encourage second bloom. TRIAL 07
Hesperaloe parviflora	Clumping-Yucca type plant, long bloom season, Low water and maintenance.
Heuchera micrantha	Purple leaves, provides year round color, small flowers. Divide every 3-4 years?
Heuchera sanguinea	Compact, evergreen clumps, good fall color. Long bloom time, Gets better as years go by-Fragrant vermilion red flowers
Hymenoxys argentea	Rocky, poor soil- good plant, Silver -gray foliage, long bloom season
Hymenoxys subintegra	Intensely silver, dissected rosettes of long, narrow leaves bear many daisy-type flowers. On sandstone fields.
Hymenoxys torreyana	Dome-like, wooly cushions are covered with huge yellow daisies in early spring.
Hysoppos officianalis	Bushy, longflowering herb. For border plant or dried flower. Peppery leaves can be used in cooking.
Iberis sempervirens Snowflake	Large flowered strain, uniform mounded habit.
Juniperis deppeana	Rough bark, slow growing?
Kniphofia uvaria	Dense clumps of grass-like leaves. Flower spikes carried on long bare stems, start red and turn orange. Needs more water as flowers form
Larrea tridentata	Seen at desert museum Evergreen desert plant, bright green, glossy foliageZone 7 plant?
Lavandula 'PROVENCE'	Cross between L. Latifolia and L. angustifolia. Very fragrant, great culinary variety. Easier to overwinter. Good for drying.
Lavandula angustifolia 'Hidcote Bl	Deepest blue Needs good drainage, compact clay is deadly-mix in course compost
Lavandula angustifolia 'Lavender L	All American Selection Early flowering- lavender blue Needs good drainage, compact clay is deadly-mix in course compost
Lavandula angustifolia Provence B	Deep blue shades. Stems long enough for cutting.

LATIN NAME	COMMENTS
Lavandula x intermedia 'DUTCH'	Robust plant with broad gray leaves, excellent culinary selection
Lavandula x intermedia 'GROSSO'	Extremely fragrant, with deep violet flowers most of the summer
Lavatera trimestris Novella	Compact branching habit. 3" flowers from spring onward last well on plant. Deadheading is necessary
Leucophyllum minus	more cold tolerant than frutescens- smaller leaves. Nice small shrub. Retains gray color through winter. Purple blooms after rain
Liatris punctata	Dense flower spikes in fall, Butterflies, taproot, does not transplant well. Well drained soils. Short flower season- plant has long visual appeal
Linum perenne lewisii	Sky blue, morning bloom. Vase shaped. cut back old growth if it gets too straggly. old plants get ratty looking, reseeds for new plants.
Lonicera sempervirens	Deep rose-red flowers open to light yellow in May and then intermittently til frost. Long period of bloom.
Lonicera sempervirens	Vigorous, semi-evergreen vine, 2" red trumpet flowers with yellow interior. Well behaved.
Lonicera x heckrottii	Vigorous to 12 feet. Blue green leaves. Blooms summer to frost- Blue-green leaves. Deciduous or semi evergreen. Good for Hummingbirds
Lycium pallidum	
Malvaviscus arboeus var drummorum	Hummingbirds- afternoon shade- dies to ground in winter. Lush green leaves. Late fall bloom.
MINT Mentha spicata	Herb used for flavoring teas and foods. Vigorous spreader- plant in bed by itself. Use leaves fresh or dried.
Miscanthus sinensis strictus	Green and yellow bands on foliage. Cut back in spring and again in summer? To freshen. May need staking to prevent flopping.
Nepeta x faassenii	A sterile hybrid. Silver -gray green leaves form a spreading mound to 30" wide. Deer and rabbit resistant. Long bloom season
Nepeta x faassenii	A sterile hybrid. Silver -gray green leaves form a spreading mound to 36" wide. Deer and rabbit resistant. Long bloom season
Nepeta x faassenii	1997 PPA plant of the year. A sterile hybrid. Silver -gray green leaves form a spreading mound to 36" wide. Deer and rabbit resistant
Oenothera macrocarpa missouriensis	Fragrant 4" wide blooms open late in the day. Drought tolerant once established. Likes extra water to bloom all summer
Oenothera macrocarpa ssp incana	Denver Botanical Gardens Plant Select 1999 gray leaves- large yellow blooms. More drought hardy than green leaves?
Oenothera pallida TRIAL 07	Rhizomatous, spreading perennial. Large 3" blooms open in evening
Oenothera versicolor	
Origanum 'Amethyst Falls' PPA	Outstanding, long blooming variety. Hop-like cones. Attractive, spicy leaves. Drought resistant. Propagation prohibited.
Origanum heracleoticum	Pungent, classic flavor, more refined and more classically "oregano" than common variety.
Origanum libanoticum	Vigorous trailing herb with hop-like bracts of lavender and chartreuse summer and fall. Rock walls and containers.
Origanum majorana	Annual herb. Keep blossoms off to promote leaf growth.
Origanum rotundifolium	Semi-prostrate branching stems covered with hop-like pods in summer and fall. Well drained soil. Containers and rock walls.
Origanum vulgare	Dark green leaves used for Italian and Spanish dishes. Check plants for good fragrance/ seasoning. Blooms attract bees and butterflies.
PARSLEY	Good for seasoning. Good for butterflies. Adults hang around to lay eggs then caterpillars have food source.
Penstemon ambiguus	Well-drained soil. Covered with white phlox-like blooms for a long season. Panhandle native. Great plant
Penstemon angustifolius	Numerous flowers circle the stalk in summer. Tolerant.
Penstemon barbatus	Salmon colored flowers. Blooms first year. Easy to grow.
Penstemon centranthifolius	Tall, protect from wind? Doesn't like cold wet gardens. Ultimate hummingbird plant
Penstemon digitalis	Bronze foliage from rosette upward, red foliage in fall. Attractive over a long period.
Penstemon eatonii	HUMMINGBIRDS. Brilliant scarlet flowers on compact plants.
Penstemon fendleri	panhandle native- spring bloom. Forms colonies in right situations that are showy in short bloom season.
Penstemon grandiflorus	Select strain of the showiest American native penstemon.
Penstemon grandiflorus	Blooms once then dies-reseeds. Large blooms Once native to Texas?- Rabbits enjoy eating
Penstemon heterophyllus	Intense azure blue spikes, large tubular flowers, attractive narrow leaves. First year flowering
Penstemon heterophyllus	Spikes of intense blue. Blooms first year
Penstemon heterophyllus	Gentian blue flowers.
Penstemon jamesii	DROUGHT TOLERANT. Panhandle native. Nice bloom.
Penstemon palmeri	"monster Penstemon" - Large white fragrant blooms-larger plant if watered some, but likely to die sooner
Penstemon parryi	Many dark pink flower stalks from rosettes. Good winter foliage.
Penstemon pinifolius	Hummingbirds, small shrublet- looks like a juniper, rock garden or low border, becomes larger every year

LATIN NAME	COMMENTS
Penstemon pinifolius 'Mersea Yellow'	Bright yellow flowers tiny shrub with woody stems.
Penstemon pseudospectabilis	Hummingbirds, Large blue-green leaves. Long blooming Rambling plant to 3 ft. needs good drainage. May get too ragged
Penstemon rostriflorus	Reddish-orange blooms- extremely drought tolerant. Native to Utah
Penstemon spectabilis	TOLERATES POOR DRY SOILS- ZONE 7
Penstemon strictus	Hummingbirds. Smooth bright green leaves. Easily grown, spreads some by stolons. Month long bloom.
Penstemon x mexicalli	1999 Plant Select. Violet-purple flowers. Narrow, dark green leaves, blooms all summer.
Perovskia atriplicifolia	deep rooted,heat loving,xeric, any soil,leave stems on through winter- then cut back to 12-18" in spring. Slowly spreading
Perovskia 'Filigran'	Finer foliage and more upright growing than the species
Perovskia 'Little Spire'	Choice, compact cultivar- should not exceed two feet. PP # 11, 643 propagation prohibited
Perovskia x longin	more upright habit. 3-4 foot plants
Potentilla recta	Sulphur yellow flowers, erect stems crested with clusters of showy flowers. Attractive foliage. Easy and showy. Good massed or borders
Ratibida columnaris	Panhandle native, drought tolerant, naturalizes, long bloom season, a little extra water improves bloom
Ratibida columnaris	Panhandle native, drought tolerant, naturalizes, long bloom season, a little extra water improves bloom
Rosmarinus officianalis	Culinary Herb. Evergreen. Shears nicely to form or keep to size you want.
Rosmarinus officianalis	Culinary Herb. Hardier variety. Evergreen. Shears nicely to form or keep to size you want.
Rosmarinus officianalis	Culinary Herb. Hardest variety (to -15) Evergreen. Shears nicely to form or keep to size you want.
Ruta graveolens	Aromatic, ferny, blue-green leaves. DO NOT EAT. Advertised as herb for salads, but may have side effects
Salvia argentea	Denver Botanical Gardens Plant Select 1997 Hairy, gray-green leaves. 3-4 foot flower stems with white blooms. Good for front of border.
Salvia chaemedryoides	Small plants, finely textured foliage.
Salvia farinacea	tall, blue salvia, use in back of bed, long bloom season, blooms age to grey if not deadheaded
Salvia farinacea	Intense violet-bluespikes in showy contrast over glossy green foliage. Thick spikes are densely packed over well branched plants
Salvia farinacea	All American and fleuroselect winner. Bicolor, silver calyx with blue corollas, compact
Salvia farinacea	Deep blue flowers, Perennial usually grown as annual? Long bloom season
Salvia farinacea	White flowers from spring to first frost.
Salvia greggii 'ESTHER'S RED'	Shrub, hummingbirds,aromatic foliage, ordinary soil, can be sheared to a hedge,long bloom season-no deadheading
Salvia greggii 'FURMAN'S RED'	2005 PLANT SELECT Crimson flowers produced in flushes through summer. Woody perennial. Best cut back in spring.
Salvia greggii 'WILD THING'	Aromatic mounds of foliage are covered with flushes of hot pink flowers.all summer. Cut to ground in spring
Salvia jurisicii	Vigorous plants with ferny foliage. Upside down blue flowers.
Salvia lemmonii	Airy plant, small leaves, long bloom season. Not real showy, but nice.
Salvia officinalis	Herb used for seasoning. Violet blooms attract small butterflies. Attractive plant. Gray-green leaves
Salvia pachyphylla	Aromatic silver foliage. Needs good drainage. Woody perennial.
Salvia patens	Spreads slowly by tuberous roots. Brilliant blue flowers. Can divide established clumps. TRIAL 07-Annual? Zone 8 plant?
Salvia roemeriana	Red flowers, not showy, but constant when deadheaded. Nice foliage.
Scabiosa caucasica	Large deep blue flowers over a long season. Strikingly handsome plant.
Scabiosa caucasica	Clear blue flowers, Hardy perennial for border or cutflower, deadheading ensures longer blooming
Scabiosa caucasica	Large lavender blue flowers over a long season. Strikingly handsome plant.
Scabiosa caucasica	Large lilac blue flowers over a long season. Strikingly handsome plant.
Scabiosa columbaria	Long bloom season when deadheaded
Scabiosa japonica	Biennial or short lived perennial.
Scabiosa rotata	Seed pods form an elongated parabolic cluster on end of stiff stem. Varying pale shades. Striking everlasting.TRIAL FOR 2007
Schizachyrium scoparium	An important grass of the True Prairie. Blue green, turning to reddish brown in fall.
Scutellaria resinosa	Roundish, resinous leaves. Mounding plant Small purple-blue flowers in spring- then sporadically through summer
Sorghastrum nutans	Strong, upright plant.Seedheads are a fluffy, golden brown. One of the major grasses of the True Tallgrass Prairies.

LATIN NAME	COMMENTS
Sorghastrum nutans 'INDIAN STEEL'	
Sporobolus heterolepis	2003 GreatPlants® selection. Narrow leaved, fragrant grass.
Stachys coccinea	
Stachys coccinea	Non stop bloomer from midsummer on. Great for hummingbirds. Deadheading is helpful to keep in bloom.
Stachys macrantha	Dense foliage clump to 1 ft. with long stalked, heart shaped, wrinkled roughly hairy leaves. Showy purplish flowers on 18" stems
Teucrium chamaedris	Semi-evergreen shrublet, SPREADS to make groundcover, dry partial shaded areas, takes pruning well, cut back after blooming
Thymus serpyllum 'MAGIC CARPET'	Grows vigorously with extra water. Trim faded flowers.
THYMUS vulgaris	Household herb, good for low edging on border.
Tradescantia occidentalis	Clump forming perennial with grass-like leaves. Has three petaled blue blooms that last only a day, but produces many through the season.
Verbena goodingii	Fragrant 2" flower heads. Reseeds. Long bloom season
Verbena speciosa	All-American and Fleuroselect winner. Small flowers of intense blue-violet in masses for bedding, container.
Veronica 'Blue Reflection'	has the vigor and heat tolerance of blue woolly speedwell and blue flowers of turkish speedwell
Veronica incana	Grey-White foliage with blue flowers. Looks nice all year
Veronica lewanensis	Needs afternoon shade. Vigorous, fast growing, groundcover
Veronica longifolia	Tall upright plants with long terminal spikes of clear blue flowers- cutflower
Veronica oltensis	Slow growing, long lived groundcover, rock garden, evergreen foliage
Veronica prostrata	Stems are hairy. Mat forming. May not be fully hardy here.
Veronica repens	A low growing groundcover.
Viola corsica	Denver Botanical Gardens Plant Select Winner. A perennial pansy that blooms for an extended period. Heat tolerant. Can take some drought
Vitex agnus-castus	Shrub to small tree, spice scented, short lived,
Zauschneria garrettii	Masses of scarlet-orange blossoms. The hardiest of the genus and very long-lived.
Zinnia grandiflora	Long bloom season. Blooms dry to pale yellow and remain on plant. Spreads slowly by reseeding or by underground roots to form colonies
